SKILLS

- ❖ **HTML, CSS**
- ❖ **Javascript**
- ❖ **Typescript**

EDUCATION

- ❖ Computer Information Technology(CIT) | Aligarh Institute of Technology, Karachi

- ❖ Matriculation(X)   *85.76%| 2021*

ACADEMIC PROJECTS

- ❖ **FitTrack - Gym Admission Website**
  The FitTrack gym admission website leverages HTML, CSS, JavaScript, Bootstrap 4, JSP, and SQL to provide a comprehensive user experience, featuring personalized health tracking and dynamic feedback. The project showcases skills in web development, database management, and responsive design.

- ❖ **TODO APP- TYPESCRIPT**
  I developed a CLI-based to-do application using TypeScript, allowing users to efficiently manage tasks from the command line. This project highlights skills in TypeScript, command-line interface development, and task management functionality.

- ❖ **Amazon Clone-HTML, CSS**
  I created an Amazon first page clone using HTML and CSS, replicating the layout and styling to closely mirror the original homepage. This project demonstrates proficiency in front-end web development and attention to design detail.

ACHIEVEMENTS

- ● Got 1st position in the C language project exhibition at AIT we made a tic tac toe game.
